

FRONT

**CVSA QUILT OF HOPE**

The Quilt of Hope was designed by Kate Conner, a CVS sufferer from Manhattan, Kansas. Fabric was contributed by 56 CVS sufferers from across the United States. Each contributor sent fabric that represents themselves in a personal way. Kate embroidered the name of each contributor to match the color of the fabric. The names are embroidered in that fashion to express how hard it is to recognize a person with CVS. The only way to truly learn about this disorder, is to get close to someone that suffers. Likewise, the only way to see the names on the quilt is to get close to it.
